

A Most Complete Showing of Correct 1912 Spring Styles

Additional arrivals from New York of both ready-to-wear garments and dress accessories enable us to make a most complete showing next week of correct 1912 Spring styles. From all indications, this will be an early Spring, and we are fully prepared to supply your every need. In this same connection we want to impress on customers that our regular Spring business will open up as usual in the present location. Although we will be in the new store probably in March, there will be no interruption whatever in our regular business.

The White House Showing of Spring Styles In Tailored Suits

ROUND TRIP ON CARS FIVE CENTS

Southsiders and Northsiders Meet at Station and Trade Them.

A round trip on any car line for five cents. This is not the bargain sale of fering of the street car company, but it is being accomplished by the north side folks, the east side folks and the smelter line folks just the same. Even some of the Smelter hillyers with all their blue silk stockings aristocracy are not adverse to using the little scheme.

The patrons of the north side lines politely request a south side transfer when they pay their fares on the morning trip. This is as politely given by the conductor. The patrons of the Mexico, Park, second ward and Myrtle avenue lines makes the same request of the conductors and receive the variegated transfers.

At the transfer station there are a number of friendly meetings between the north siders and the south siders. An exchange of transfers follows as an evidence of good fellowship.

Result: The north siders ride back

home in the evening with the south siders' transfer and vice versa. Total amount paid in regular money, five cents—Transfers?

VALLEY FARMERS SIGN UP LAND FOR CANTALOUPE GROWING DURING 1912

Five Owners of Land Alone Sign Up 30 Acres—Clint Farmers Are Meeting Also; May Plant Celery, Too.

Twenty El Paso valley cantaloupe growers met at the chamber of commerce Saturday morning and five of them signed an agreement to produce 30 acres each of cantaloupes and sell them through Lyon Bros. company of New York and M. O. Coggins & Co. of Pittsburg, Pa., giving these people 15 percent of the gross receipts for handling the crop and negotiating the sales.

No association was formed, the growers signing up as individuals, but later it is expected that a produce association will be established.

The seeds to be furnished by Lyon Bros. company, are to cost the farmers \$2 per pound. This is to be planted the first week in April and the crop will be ready for delivery July 15, after the Imperial valley crop and before the Colorado crop.
